

A MESSAGE FROM NANCY.....

Nancy had to give up her Griff when allergies became a problem with their child. NBGR helped find a wonderful home for her Griff. Kasia (one of my most wonderful foster homes) ended up adopting her.

It's that time of year again when people start buying the most loving, adorable gifts for loved ones. One of those gifts is sometimes a cat or a dog. I understand how that happens as I was on the receiving end. I was given a three-month-old Brussels Griffon who changed my life forever in the best of ways. Once you raise a dog you truly understand unconditional love and the great responsibility of life.

5 years later I was given another gift, an extraordinary little girl. My two babies were best friends and so in love with each other. My dog Fifi taught me so much about parenting that I realized once I had my daughter Chloe. I am forever grateful to Fifi for so many things.

Having said all of that, it truly does seem best for the animal and the people thinking about getting to know it is for life and it is a great responsibility as I mentioned. Are you transient? Do you work from home or are you gone all day? Do you have children? Do you know if they are allergic? Can you afford more medical bills and food? As you're looking into the eyes of that adorable puppy these things are furthest from your mind, but that results in many abandoned animals, malnourished, abused and more. Please be mindful of the animal and the people that care for them.

I am especially grateful for The National Brussels Griffon Rescue for helping me when I found myself in an unthinkable situation. I am grateful for all of the rescues and rescuers, Especially Kasia and Ken, your love, commitment and selflessness is extraordinarily special.

If you can, please donate this Holiday season to help give animals the healthcare, homes, genuine love and attention they need by giving to a rescue of your choice. Of course, my choice is The National Brussels Griffon rescue. Thank you all for being amazing.

Love,

Nancy, Chloe, Rik and Fifi.....

Please watch this short documentary I made on how the NBGR helped me and my family..
